D. BACKGROUND AND EXPERIENCE	
Please briefly present the partner organization.	<p>Our organization, Action Alpha, was founded in May 2023. The idea came from our president, Nikolas Varga, who had experience working with youth people in Romania and wanted to create an organization for youth.</p> <p>Our main goal is to support youth participation. We want youth people to be more active, to not be afraid of challenges, and to get involved in events — even as organizers. Another important goal is to show youth people the opportunities available to them, especially by sharing personal experiences from Erasmus+ projects and the European Solidarity Corps volunteering program. We believe that by sharing and promoting these experiences, the programs will become more popular among youth people who will be inspired to try them out.</p> <p>Our organization is based in the village of Tvrdošovce, located in southwestern Slovakia, home to a large Hungarian-speaking community. We support this community and wish to inspire youth people to value, preserve, and carry forward the traditions and customs of our region.</p>

What are the activities and experience of the organization in the areas relevant for this application?

We are still a relatively small, local organization, focused on creating events and activities for our community. So far, we've organized a one-day Erasmus camp, set up an "Erasmus tent" at local events, and hosted activities for children, such as drawing, painting, and playing board games.

Additionally, we have organized discussions at primary schools in Tvrdošovce and at a secondary school in Nové Zámky. Although our quiz nights weren't as successful as we hoped, we remain positive and motivated, learning from every experience. We also engage with youth people from other parts of Slovakia, support them, and help them create opportunities, such as writing their own applications for youth exchanges. Our organization also collaborates with other NGOs in our village on various events and we are proud to be a partner of the national organization Mladiinfo Slovensko.

Last year, thanks to training for our staff, we are striving to create events with a stronger educational focus. For example, we have conducted a situational analysis on the needs of youth people, and we are planning a workshop on active youth participation

<p>What are the skills and expertise of key staff/persons involved in this application?</p>	<p>In this project, our organization will be represented by Nikolas Varga, who is our president. He has experience with Erasmus+ projects, not only as a participant, but also as organizer and facilitator. He helped to write projects before and organized youth exchanges and trainings. He also knows how to take care of logistics, group management and budget. He learned many of these skills when he worked in Romania for the Youth Association from Transylvania. Nikolas also took part in a programme called Marker CS, which is for youth workers from Central Europe. Thanks to this programme, he improved his skills in project planning, facilitation and leadership. He understands Erasmus+ very well – the values, how it works, and how to work with young people in an international group.</p>
